Helping Alabama Families

Governor's Task Force to Strengthen Alabama Families

The Camellia Tool

What is it?

A computer tool to help you gather information about Alabama's health and human services and your eligibility for those services.

Who can complete the tool?

Anyone with access to a computer connected to the Internet can complete the tool.

When can I complete the tool?

24 hours a day – 7 days a week.

Where can I complete the tool?

You can access the tool from any computer that's connected to the Internet.

How does it work?

It will take you about 10 – 20 minutes to complete the Camellia Tool. Just type in the following address: http://www.camellia.alabama.gov, click on the camellia icon to start the eligibility screening tool. Click the box to indicate you agree and understand that this is not actually applying for the programs but only gives you possible eligibility and location information of where you can find assistance in your county. Then, answer each of the questions. After you have finished, the tool will give you details that you can print on a printer about services that might be available to assist you and your family. It's that simple!

Why should I complete the tool?

There are a variety of services provided in Alabama that can assist you and your family – and you might not even be aware of them! Our goal is for you to have as much information as possible about programs you may be eligible for.

Where can I go for help with the tool?

Contact your nearest family services center with questions or for help completing the tool.

Other resources

In addition to the Camellia Tool, the website also offers information on state agencies, family services centers, the Earned Income Tax Credit, unemployment compensation, Alabama JobLink and other services to assist you.

Thank You

The Task Force would like to acknowledge and thank the following organizations and businesses who have contributed to the success of the Camellia Tool website:

- Annie E. Casey Foundation
- Alabama Power Company
- Systems Engineering Inc.
- Prudential Life Foundation
- Microsoft
- State of Alabama Information Systems Division
- Governor's Task Force to Strengthen Alabama Families committees that have made and continue to make this project successful.
